SUMMARY

Software Engineer building production full-stack and mobile applications with Java, TypeScript, React, React Native, Node.js, and SwiftUI. Shipped apps to Google Play (100+ users), scaled REST APIs to 200+ concurrent users, and won a 24-hour iOS hackathon against 50+ teams.

EXPERIENCE

Web Winners Tech Solution

Feb 2026 – Present

Full Stack Software Engineer

Chandigarh, India (Remote)

- Engineered scalable RESTful APIs in Node.js and Express.js, reducing front-end integration time by 30% across 10+ modules.
- Optimized 25+ SQL queries via indexing and schema restructuring, cutting API response time by 40% under 200+ concurrent users.
- Deployed 3 production releases via CI/CD with 99.5% uptime (zero-downtime blue-green); implemented RBAC and workflow automation for ERP processing 500+ daily transactions.

EZ Care AI

Dec 2025 – Feb 2026

Full Stack Software Engineer

France (Remote)

- Built an AI wellness platform (Next.js, TypeScript, Supabase) serving personalized recommendations to 200+ beta users across 15+ health metrics.
- Developed the EZBuddy AI assistant with OpenAI API and LLM inference, generating 1,000+ personalized meal/fitness plans; secured with Supabase Auth + Row-Level Security (zero unauthorized access).
- Integrated PostHog tracking 100+ events, driving 3 data-backed iterations that improved retention by 20% within Agile sprints.

PROJECTS

SmartOrbit – iOS Placement Prep App | *SwiftUI, MVVM, Swift, Xcode* | [GitHub](#)

Feb 2026

- Shipped a native iOS placement-prep app simulating real exam conditions (full-screen mode, smart timer, question palette, mark-for-review); built in 24 hours and won 1st place out of 50+ teams.
- Architected in SwiftUI + MVVM with Apple/Google/email auth and post-exam analytics across test banks for Google, Amazon, Microsoft, Meta, TCS, and Infosys.

Salasar Stay Manager | *React Native, TypeScript, Firebase, Node.js, PostgreSQL, Docker* | [Google Play](#)

Nov – Dec 2025

- Shipped a production React Native app to Google Play with real-time room tracking and role-based dashboards, cutting booking conflicts by 90%.
- Built Node.js + PostgreSQL backend managing 100+ customer records, with Firebase Firestore/Auth/Cloud Messaging and Docker-based CI/CD via EAS Build for OTA updates.

ColdClaw – AI Cold Email SaaS | *React, TypeScript, Node.js, OpenAI API, LangChain* | [coldclaw.tech](#)

Mar 2026

- Built an AI SaaS generating personalized cold emails in under 3 seconds, producing 100+ campaigns and acquiring 30+ users in week one.
- Integrated OpenAI API + LangChain with structured JSON output across 5 tone presets at 95%+ formatting accuracy.
